

FLAG QUIZ

Have you enjoyed seeing all the flags flying on the flagpole well here's a little quiz about this month's flag.

- 1) Look at the yellow and green shape on the flag. It's called a 'Pennant' that means triangular shape. There is only one country today that does not have a rectangular shaped national flag. What is that country?
- 2) You won't recognise the writing at the top and bottom of the flag. It doesn't look like English does it. Who writes like this?
- 3) Now look at the picture in the Notice Board. Can you see a map? How many continents can you see and can you name them?
- 4) There are 4 white figures on the picture. Where do you think they live?
- 5) The red and blue stripes on the picture are the colours of the national flag of 2 of the figures but something is missing. Do you know what it is?

Here are some unusual national flags

How about designing your own flag, have fun
